SITUATION SUMMARY

National News – Significant Events

Deadly Shooting Sparks Panic at Zombicon Event in Fort Myers, Florida

(CNN) Chaos broke out at a zombie-themed street festival in downtown Fort Myers, Florida, after a shooting left one man dead and four other people wounded. Crowds of festivalgoers fled screaming through the streets after the shots rang out late Saturday at ZombiCon. "It cleared out fast and cop cars and ambulances came," said Savannah Holden, who watched the panic unfold from a hotel balcony. One man died of a gunshot wound at the scene, police said, and four other people who suffered non-life-threatening injuries were taken to Lee Memorial Hospital for treatment. The identities of the victims weren't disclosed, and the circumstances of the shooting remained unclear. Detectives have been canvassing the area for witnesses, authorities said, asking anyone with information on what happened to call the Fort Myers Police Department. The deadly shooting took place at ZombiCon, a festival that features bands and DJs performing on stage in the downtown area to people dressed in zombie costumes. It draws upward of 20,000 attendees, police said.

International News – Significant Events

Typhoon Koppu Weakens but Still Dangerous in Philippines

(AP) Slow-moving Typhoon Koppu blew ashore with fierce wind in the northeastern Philippines early Sunday, toppling trees and knocking out power and communications. Officials said there were no immediate reports of casualties. More than 14,000 villagers have been evacuated from the typhoon's path, including in towns prone to flash floods and landslides and coastal villages at risk from destructive storm surges, said Alexander Pama, who heads the disaster-response agency that has overseen evacuation and pre-deployment of rescue contingents. After slamming into Casiguran town in Aurora province shortly after midnight, the typhoon weakened slightly and slowed considerably, hemmed in by the Sierra Madre mountain range and a high pressure area in the country's north and another typhoon far out in the Pacific in the east, government forecaster Gladys Saludes said. President Benigno Aquino III and disaster-response agencies have warned that Koppu's rain and wind may potentially bring more damage with its slow speed. But Saludes said there was less heavy rain than expected initially in some areas, including in the capital, Manila, but wind was fierce in many regions. Koppu, Japanese for "cup," is the 12th storm to hit the Philippines this year. An average of 20 storms and typhoon each year batter the archipelago, one of the world's most disaster-prone countries.

SITUATION SUMMARY

Knights Landing Community Services District Well Failure, Yolo County

- Per Cal OES IDO: Knights Landing Community Services District (CSD) reported a well failure on 10/12/15. This follows a separate well failure several weeks ago. The CSD is now operating on one well. In support of Yolo County and the CSD, Cal OES is coordinating with State Water Board to investigate funding sources to support repairs.
- Yolo County EOC Activated at Level 2 beginning 0900 on 10/13/15 in support of Knights Landing CSD Well Failure.

Cal OES Activation Status

- The Cal OES State Operations Center (SOC) transitioned to Joint Field Office (JFO) operations with FEMA to support recovery operations.

Cal EOC Incident – 2014 Drought

- SOC / Inland REOC remains activated in support of 2014 Drought

Weather of Concern

- Flash Flood Watches remain in effect through this evening for areas in San Bernardino and Inyo Counties.

Active Weather Warnings, Watches and Advisories by County:

WEATHER

WEATHER SYNOPSIS BY REGION:

NORTHERN CALIFORNIA AND CENTRAL COASTAL AREAS:

Eureka Weather:

An upper level low will move across the area and produce isolated terrain driven showers today. Dry and warmer weather conditions are in store for early to mid-next week as high pressure builds over the region.

Medford Weather:

The closed upper low will continue its inland trek today with showers throughout the day. A weaker front will move onshore Monday before washing out Monday night as an upper ridge builds into the region. On Tuesday, temperatures will rise nearly ten degrees from Monday. Another front will move in after the ridge moves east Thursday and there will be just a glancing blow of precipitation on the northern fringes of the forecast area.

Reno Weather:

Low pressure over Northern California will keep shower activity across the region today with isolated thunderstorms possible. Temperatures will cool off to near seasonal normal before warming again next week.

San Francisco Weather:

Dry weather is expected for the remainder of the weekend for most of the forecast area along with near normal temperatures. Warmer temperatures are forecast by Tuesday and Wednesday as offshore flow develops and an upper ridge develops near the West Coast.

WEATHER

WEATHER SYNOPSIS BY REGION:

CENTRAL CALIFORNIA AND SOUTHERN SAN JOAQUIN VALLEY:

Sacramento Weather:

Another day of unsettled weather with cool temperatures and showers/thunderstorms will give way to a breezy beginning of the week, with warming temperatures and dry weather returning.

Hanford Weather:

A chance of showers and thunderstorms today as an unstable air mass remains over the region. Higher pressure moving in by Monday will produce clearer skies and warming temperatures for the area through the week.

SOUTHERN CALIFORNIA:

Los Angeles Weather:

Low pressure aloft will bring the possibility of mainly afternoon and evening showers and thunderstorms to the mountains and deserts through today. Coastal morning clouds and patchy fog is also possible today. A second low pressure aloft will support cooler temperatures today and Monday and then gradually warming through the middle of next week as the low slowly pushes to the east.

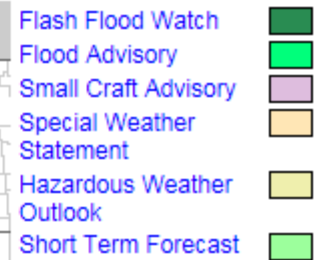

Extreme Southwestern California including Orange, San Diego, Western Riverside and Southwestern San Bernardino Counties:

A low pressure system moving inland into California today will maintain a deep marine layer into Monday with a chance of mainly afternoon and early evening thunderstorms today for the mountains and deserts. A second low pressure system will develop near Yuma on Tuesday. This will bring weak to locally moderate offshore flow with gusty northeast winds near the coastal foothills for Tuesday and Wednesday. Weak high pressure aloft will follow into next weekend bringing a warming trend.

Southeast California Weather:

A series of slow moving low pressure systems will bring elevated chances of showers and thunderstorms to the region through the middle of the week. A modest drying trend is expected on Monday but this will be short lived as a second low moves into the Desert Southwest on Tuesday, remaining in place through Thursday. Drier air will then move into the area late in the week.

CAL OES 2014 DROUGHT

Cal EOC Incident – 2014 Drought

- The SOC is activated in support of the Drought State of Emergency and continue to monitor the situation.
- The Governor issued Executive Order B-26-14 on 09/19/14, to streamline relief efforts for families with drinking water shortages due to drought, specifically through the California Disaster Assistance Act, to provide temporary water supplies to households without water for drinking and/or sanitation purposes.
- The Governor issued Executive Order B-29-15 on 04/01/15 which announced actions that will save water, increase enforcement to prevent wasteful water use, streamline the state's drought response and invest in new technologies to make California more drought resilient.
- CDAA 2014 Drought Fact Sheet and Frequently Asked Questions provided to Regions for reference and distribution.
- Cal OES Recovery continues to coordinate the Community Impacts Workgroup conference calls. Currently, the calls take place on alternating Wednesdays.
- Cal OES Recovery/Individual Assistance finalized an updated 2015 version of the drought brochure of programs and services for individuals, businesses, farmers, and ranchers. It has been put on the Governor's Drought webpage. State agencies may put the following link to the brochure on their webpage <http://ca.gov/drought/pdf/Drought-Assistance-Brochure-2015.pdf>
- Cal OES Regions (Inland, Coastal, Southern) collective OA drought call is facilitated by the SOC every Monday at 1100 hours.

CAL OES 2014 DROUGHT

Cal EOC Incident – 2014 Drought

Local Emergency Proclamations:

A total of 61 local Emergency Proclamations have been received to date from city, county, and tribal governments, as well as special districts:

- 27 Counties: Butte, El Dorado, Fresno, Glenn, Inyo, Humboldt, Kern, Kings, Lake, Madera, Mariposa, Merced, Modoc, Plumas, San Bernardino, San Joaquin, San Luis Obispo, Santa Barbara, Shasta, Siskiyou, Sonoma, Stanislaus, Sutter, Trinity, Tulare, Tuolumne, and Yuba.
- 13 Cities: City of Live Oak (Sutter County), City of Lodi (San Joaquin County), City of Manteca (San Joaquin County), City of Montague (Siskiyou County), City of Porterville (Tulare County), City of Portola (Plumas County), City of Ripon (San Joaquin County), City of San Juan Bautista (San Benito County), City of Santa Barbara (Santa Barbara County), City of Rancho Cucamonga (San Bernardino County) and City of West Sacramento (Yolo County), City of Willits (Mendocino County), and City of Fort Bragg (Mendocino County).
- 9 Tribes: Cortina Indian Rancheria (Colusa County), Hoopa Valley Tribe (Humboldt County), Karuk Tribe (Siskiyou/Humboldt Counties), Kashia Band of Pomo Indians of the Stewarts Point Rancheria (Sonoma County), Picayune Rancheria of Chukchansi Indians (Madera County) Sherwood Valley Pomo Indian Tribe (Mendocino County), Tule River Indian Tribe (Tulare County), Yocha Dehe Wintun Nation (Yolo County), and Yurok Tribe (Humboldt County).
